| Dearborn County  | Buffalo species | ALL             | PCB         | 1 meal / 2months (8 ounces / 2 months)               |
|  | Channel Catfish | up to 20<br>20+ | PCB<br>PCB  | 1 meal / 2months (8 ounces / 2 months)<br>Do not eat |
|  | Common Carp     | up to 16        | PCB         | 1 meal / month (8 ounces / month)                    |
|  |                 | 16-20           | PCB         | 1 meal / 2months (8 ounces / 2 months)               |
|  |                 | 20+             | PCB         | Do not eat   |
|  | Largemouth Bass | up to 18        | PCB         | 1 meal / week (8 ounces / week)                      |
|  | White Crappie   | 11+             | PCB         | 1 meal / 2months (8 ounces / 2 months)               |
| <b>Laughery Creek</b>  |                 |                 |             |  |
| Dearborn County  | White Crappie   | up to 10        |             | unrestricted   |
| Dearborn/Ohio County   | Common Carp     | ALL             | Hg, PCB     | 1 meal / week (8 ounces / week)                      |
| <b>Tanners Creek</b>   |                 |                 |             |  |
| Dearborn County  | Bluegill        | up to 6         |             | unrestricted   |
|  | Largemouth Bass | up to 13<br>17+ | Hg, PCB     | unrestricted<br>1 meal / month (8 ounces / month)    |

General Population

\*Sensitive populations include: pregnant or nursing women, women that will become pregnant, and children under 6 years of age. These consumers should use caution when eating some types of sportfish.

\*\*The maximum amount for adults to eat is determined by fishing location, species and fish length. For instance, if you eat the maximum amount of one species during a week, you should not eat any other fish which has a consumption limitation until the following week. Example - if you eat the limit (4 ounces) of a 20 inch long Carp from the Easy Catch River, then you should not eat any other sportfish from the list until the following week.
